ANTIOXIDANTS AND ORTHOMOLECULAR NUTRITION

ALLERGIES

NEUTRALIZE ALLERGIC REACTIONS

Histamin Control

Formulated with natural substances that reduce the intensity of the allergic reactions. It can be used as a natural alternative to corticosteroids or other antihistamines, or as an option during withdrawal periods.

Indications: food allergies, atopic dermatitis, asthma, allergic rhinitis, eczema and hives. Recommended during vaccination periods.

Composition per tablet: Methylsulfonylmethane: 150 mg, Quercetin: 125 mg, Sodium ascorbate (Vitamin C): 125 mg, Beta-glucans: 75 mg, Nettle extract (*Urtica dioica*): 75 mg, Bromelain: 50 mg, Magnesium gluconate: 50 mg (Mg: 2.7 mg), Glycine: 50 mg, Zinc chelate of methionine: 50 mg (Zn: 10 mg), Lipoic acid, Excipients q.s.

Administration: 1 tablet (1.3 g) per 10 kg of body weight, twice a day. Without food/between meals if possible.

Packaging:

- C: 210100 60-tablet container
- C: 210101 300-tablet container
- C: 210103 120-tablet clinical blister pack
- C: 210102 300-tablet clinical blister pack

Histamin Control Large Breeds

Same composition and indications as Histamin Control. The 3-g tablets are ideal for medium and large breed dogs.

Comprehensive protocol for allergies:
<http://bit.ly/2uqAQ1h>

Composition per tablet: Methylsulfonylmethane: 346.2 mg, Quercetin: 288.5 mg, Sodium ascorbate: 288.5 mg, Beta-Glucans: 173.1 mg, Nettle extract (*Urtica dioica*): 173.1 mg, Bromelain: 115.4 mg, Magnesium gluconate: 50 mg (Mg: 6.24 mg), Glycine: 115.4 mg, Zinc chelate of methionine: 115.4 mg (Zn: 23.1 mg), lipoic acid, Excipients q.s.

Administration: 1 tablet (3 g) per 25 kg of body weight, twice a day. Without food if possible.

Packaging:

- C: 210105 60-tablet container
- C: 210106 240-tablet container

DIGESTIVE TRACT

NEW

PROTECTION AND REPAIRING OF THE GASTRIC MUCOSA

GastroProtect

It contains natural ingredients that promote the repairing of gastric lesions, alleviate pain and help to reduce inflammation and oxidative stress. It does not contain aluminium nor affects gastric pH.

Indications: gastritis, duodenitis, ulcers, esophageal reflux. Prevention of damages caused by stress, NSAIDs or highly demanding sports or work.

Composition per tablet: MSM: 250 mg, Algae extract (*Fucus vesiculosus*): 250 mg, Lion's mane mushroom extract (10:1): 250 mg, Deglycyrrhizinated licorice extract: 125 mg, N-acetylcysteine: 125 mg, Zinc chelate: 125 mg (Zn: 25 mg), Gamma oryzanol: 100 mg, Excipients q.s.

Administration: Cats and dogs < 10 kg: 1/4 tablet/day. Dogs 10-20 kg: 1/2 tablet/day. Dogs 20-30 kg: 1 tablet/day. Dogs 30-40 kg: 1.5 tablets/day. Dogs > 40 kg: 2 tablets/day. It can be divided into two doses to coordinate it with the consumption of food. 2.5-g tablets.

Packaging:

- C: 210120 96-tablet clinical blister pack

INTESTINAL MUCOSA

GlutaVet

GlutaVet is formulated with natural substances that favour the regeneration of the intestinal mucosa.

Indications: food allergies linked to intestinal permeability, acute or chronic diarrhea, or as an adjuvant to anti-inflammatory drugs or other toxic substances.

Composition per tablet: L-glutamic acid: 750 mg, Glucosamine: 75 mg, *Ulmus pumila* (elm dry extract): 75 mg, Vitamin D3: 100 IU, Excipients q.s.

Administration: 1 tablet (1.3 g) per 10 kg of body weight, twice a day.

Packaging:

- C: 210110 60-tablet container
- C: 210111 300-tablet container
- C: 210112 300-tablet clinical blister pack

DIGESTIVE ENZYMES

EnziVet

It facilitates the absorption of nutrients by favoring their bioavailability. It is beneficial for patients of any age, especially for the elder ones.

Indications: malabsorption syndromes, exocrine pancreatitis, bad breath caused by bad digestions, digestive disorders, diarrhea, weight loss, immune disorders, lethargy, flatulence, skin disorders, excessive hair loss, allergy, joint problems and coprophagia.

Composition per tablet: Alpha-amylase: 1,550 IU, Lipase: 1,000 IU, Protease: 400 IU, Beta-xylanase: 200 IU, Beta-glucanase: 137 IU, Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight, twice a day, mixed with the food.

Packaging:

- C: 210060 60-tablet container
- C: 210061 300-tablet container
- C: 210062 300-tablet clinical blister pack

LIVER

LIVER PROTECTION

Hepa-T-Detox

Antioxidants and amino acids for animals with liver disease. All its components favor the production of glutathione, an antioxidant that is essential for all detoxifying processes and the regeneration of hepatic cells.

Indications: acute and chronic hepatic disorders, removal of hepatic toxins, degenerative and chronic diseases, hepatic lipidosis.

Composition per tablet: L-cysteine: 150 mg, *Silybum marianum* (milk thistle, silymarin): 100 mg, Choline: 75 mg, L-methionine: 25 mg, Lipoic acid: 10 mg, Excipients q.s.

Administration: 1 tablet (1g) per 10 kg of body weight, twice a day, until normal analytical results are reached.

Packaging:

- C: 210010 60-tablet container
- C: 210011 300-tablet container
- C: 210012 300-tablet clinical blister pack

KIDNEY

KIDNEY PROTECTION

Urovet-C

Its ingredients maintain and regenerate the bladder's protective glycosaminoglycan layer. It helps to reduce the recurrent, chronic and antibiotic-resistant urinary tract infections. It has diuretic and antilithiatic properties.

Indications: urinary tract infections, idiopathic cystitis and bladder stones.

Composition per gram: Fish oil (omega-3 essential fatty acids): 120 mg, Glucosamine: 60 mg, European blueberry (*Vaccinium myrtillus*): 30 mg, *Ortosiphon stamineus*: 12.5 mg, *Agropyron repens* (couch-grass): 25 mg, *Lepidium sativum*: 25 mg, *Lespedeza capitata*: 12.5 mg, Sodium ascorbate (Vitamin C): 10 mg, Excipients q.s.

Administration: 2 g per 10 kg of body weight, twice a day (1 g = 4 cm of paste).

Packaging: C: 210090 100-g tube

Urovet-RQ

It supports kidney function. Its ingredients promote diuresis and the excretion of urea. Calcium carbonate acts as a phosphate binder, as recommended by the IRIS.

Indications: chronic kidney disease in cats and dogs.

Composition per gram: Calcium carbonate: 150 mg, Fish oil (omega-3): 120 mg, L-arginine: 80 mg, Glycine: 40 mg, Soy lecithin: 30 mg, *Ortosiphon stamineus*: 25 mg/g, *Lespedeza capitata*: 10 mg/g, *Urtica dioica*: 12.5 mg, Sodium bicarbonate, Excipients q.s.

Administration: 2 g per 10 kg of body weight, twice a day, with food (1 g = 4 cm of paste)

Packaging: C: 210091 100-g tube

IMPROVED FORMULA

NEW
PRODUCT
PACKAGING

NEUROLOGICAL PROTECTION

NeuroVet

It provides extra antioxidants and specific nutrients to animals with neurological problems.

Indications: elder pets, recovery after neurological pathologies (vestibular disease, spinal disc herniation...), adjuvant treatment for epilepsy, stress or behavior disorders, etc.

Composition per dose (tablet or paste): L-phenylalanine: 75 mg, Vitamin B1 (Thiamine): 50 mg, L-carnitine L-tartrate: 50 mg, L-tryptophan: 50 mg, Vitamin E: 50 IU, soy lecithin: 20 mg, Vitamin B6 (Pyridoxine): 20 mg, Vitamin B12 (Cyanocobalamin): 300 mcg, Excipients q.s. The paste also contains fish oil, malt and brewer's yeast.

Administration: 1 tablet (1 g) per 10 kg of body weight, twice a day. Paste: 4 cm (1.7 g) per 10 kg of body weight, twice a day.

Packaging:

C: 210020 60-tablet container
C: 210022 300-tablet container
C:210021 Paste, 100-g tube

PROTECTION IN CASES OF DEGENERATIVE EYE DISEASES

OcuHealth

It is based on alpha-lipoic acid, the universal antioxidant.

Indications: it offers nutritional support in cases of cataracts and glaucoma. Adjuvant treatment in degenerative processes affecting the retina caused by diabetes or insulin treatment.

Composition per tablet: Taurine: 250 mg, Sodium ascorbate (Vitamin C): 50 mg, *Citrus sinensis* (orange bioflavonoids), Lipoic acid: 15 mg, European blueberry (*Vaccinium myrtillus*): 10 mg, Zinc chelate of methionine: 10 mg (Zinc: 2 mg), *Vitis vinifera* (grape seed): 20 mg, *Tagetes erecta* (Lutein): 6 mg L-selenomethionine: 5 mg (Selenium: 0.1 mg), Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight per day. The dosage can be increased according to the veterinarian's judgement.

Packaging:

C: 210040 60-tablet container
C: 210041 300-tablet container
C: 210042 300-tablet clinical blister pack

HEART PROTECTION

Cardio I

Deficiencies in Carnitine, Taurine or Co-enzyme Q10 are common in multiple heart diseases. Cardio I provides antioxidants and specific nutrients to support the cardiac function.

Indications: early stages of heart diseases and/or elder pets.

Cardio II

It provides an extra dose of Carnitine.

Indications: advanced heart failure, dilated and hypertrophic cardiomyopathy and congestive heart failure (CHF).

Composition per tablet: Taurine: 200 mg, L-carnitine L-tartrate: 200 mg, Glycine: 50 mg, *Vitis vinifera* (grape seed): 50 mg, Co-enzyme Q10: 10 mg, Magnesium gluconate: 92.6 mg (Magnesium: 5 mg), Potassium gluconate: 30 mg (Potassium: 5 mg), Copper sulfate: 25 mg (Copper: 10 mg), L-selenomethionine: 250 mcg (Selenium: 5 mcg), Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight per day. The dosage can be increased according to the veterinarian's judgement.

Packaging: C: 210030 60-tablet container

Composition per tablet: L-carnitine: 500 mg.

Administration: 1 tablet (1 g) per 10 kg of body weight per day.

Dosage can be increased according to the veterinarian's judgement.

Packaging: C: 210031 60-tablet container

HEART PROTECTION

Cardio-R-Vet

Nutritional support in chronic heart failure. Ribose allows the synthesis of ATP, DNA and RNA to repair cellular damage caused by heart failure. Studies on Cardio-R-Vet show beneficial effects on the dog's quality of life: it increases recovery, mobility and body weight while reducing fatigue.

Indications: hypertrophic or decompensated dilated cardiopathy, CHF.

Composition per gram: D-Ribose: 705 mg, L-carnitine L-tartrate: 200 mg, Co-enzyme Q10: 8.3 mg, Excipients q.s.

Administration:

- Small animals: One 1.25-ml measuring spoon / 3 kg of body weight, twice a day.

- Medium and large animals: One 5-ml measuring spoon / 15 kg of body weight, twice a day.

Packaging:

C: 210032 250-g container
C: 210033 60-g container

NUTRITIONAL SUPPORT IN CANCER PATIENTS

OncoVet I

All cancer patients (99%) suffer from nutritional deficiencies that are difficult to compensate, as biochemical processes are highly compromised. OncoVet I provides nutritional support for all types of neoplasms, during chemo- and radiotherapy and pre- and post-surgery.

OncoVet II

It is formulated with amino acids, vitamins, antioxidants and minerals to compensate the nutritional deficiencies caused by oncological diseases and treatments. It promotes the activity of the immune system, reinforces the extracellular matrix and improves the quality of life of the patients.

▶ **Don't miss our explanatory video:** <http://bit.ly/2fA3iHv>

Composition per tablet: Glutamic acid: 150 mg, *Silybum marianum* (Milk thistle, silymarin): 100 mg, *Punica granatum* (Pomegranate): 125 mg, *Camellia sinensis* (Green tea): 100 mg, *Curcuma longa* (Turmeric): 50 mg, *Vitis vinifera* (Grape seed): 20 mg, L-selenomethionine: 1 mg (Selenium: 0.02 mg), Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg body weight, twice a day.

Packaging:

C: 210050 60-tablet container
C: 210051 300-tablet container
C: 210052 300-tablet clinical blister pack

Composition (in 3 g): Whey protein: 2000 mg, L-proline: 75 mg, L-lysine: 50 mg, L-arginine: 150 mg, Niacinamide (Vitamin B3): 200 mg, Sodium ascorbate (Vitamin C): 300 mg, Vitamin D3: 300 IU, Vitamin K3: 3 mg, Lipoic acid: 10 mg, Magnesium gluconate: 100 mg (Magnesium: 5.4 mg), Zinc chelate of methionine: 30 mg (Zinc: 6 mg), Excipients q.s.

Administration: Small animals: 0.6 g / 2 kg body weight, twice a day. Medium and large animals: 3 g / 10 kg body weight, twice a day

Packaging:

C: 210056 120-g container (with 0.6-g measuring spoon)
C: 210055 240-g container (with 3-g measuring spoon)

GUM DISEASES

GingiVet

Nutritional support for animals with gum and buccal mucosa problems.

Indications: it has been formulated to address all the nutritional deficiencies linked to gum diseases. It is indicated for calicivirus infections and hard-to-heal wounds.

Composition per tablet: L-lysine: 400 mg, Glycine: 200 mg, Co-enzyme Q10: 20 mg, *Vitis vinifera* (Grape seed): 20 mg, Lipoic acid: 10 mg, Zinc chelate of methionine: 50 mg (Zinc: 10 mg), Folic acid: 200 mcg, Vitamin B12: 100 mcg, L-selenomethionine: 350 mcg (Selenium: 7 mcg), Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight per day.

Packaging:

C: 210002 60-tablet container

IMMUNOMODULATORY NUTRITIONAL SUPPORT

ImnuHealth

It provides nutrients that strengthen and optimize your pet's immune system.

Indications: immunosuppressed pets, during and after anti-infectious treatments, vaccines, stress, and for viral diseases. Leishmania and parvovirus.

Composition per tablet: Glycine: 100 mg, Arabinogalactan: 100 mg, Glutamic acid: 70 mg, Sodium ascorbate (Vitamin C): 50 mg, *Echinacea purpurea*: 50 mg, *Camellia sinensis* (Green tea): 50 mg, Vitamin B6 (Pyridoxine): 10 mg, Zinc chelate of methionine: 25 mg (Zinc: 5 mg), Manganese chelate of amino acids: 1.5 mg (Manganese: 150 mcg), Folic acid: 200 mcg, Vitamin B12 (cyanocobalamin): 100 mcg, Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight, twice a day, for 10 days at least.

Packaging: C: 210070 60-tablet container

NEW FORMAT

NATURAL ANTHELMINTIC

VermiStop

Dietary supplement indicated during the treatment and prevention of intestinal parasites of dogs and cats. VermiStop is formulated with dry extracts of 6 plants that contribute to create a hostile environment for parasites, as well as to stimulate the natural, physiological processes against them.

Composition per tablet: Garlic extract (*Allium sativum*): 300 mg, Pumpkin seed extract (*Cucurbita pepo*): 300 mg, Grape seed extract (*Vitis vinifera*): 50 mg, Barberry root extract (*Berberis vulgaris*): 50 mg, Marshmallow extract (*Althaea officinalis*): 50 mg, Echinacea extract (*Echinacea purpurea*): 50 mg, Excipients q.s.

Administration: 1 tablet (1.3 g) per 10 kg of body weight per day.

Packaging:

C: 260001 120-tablet clinical blister pack | C: 260003 20-tablet blister pack

COPROPHAGY

CoproVet

Coprophagy can be a symptom of a certain disease (malabsorption, pancreatitis...) or a behavior disorder. The latter can be discouraged by administering CoproVet, a natural product based on plant extracts that gives an unpleasant taste and odor to cats and dogs' feces.

Composition: Yucca, mint and pineapple extracts, excipients q.s.

Administration: 1 measuring spoon/5 kg of body weight per day. In case of autocoprophagy, administer CoproVet to the affected animal. If the pet eats other animals' feces, CoproVet should be administered to the other animals.

Packaging: C: 260010 50-g container with measuring spoon.

MICROBIOTA AND DIGESTIVE FUNCTION

Floravet Complex

Unique mixture of pre- and probiotics, plant and medicinal mushroom extracts to optimize the gut flora and the digestive function of cats and dogs. **Indications:** Acute and chronic diarrhea, colic, flatulence, atopic dermatitis and food allergies, poor stool quality, together with antibiotics and anti-inflammatory treatments, chemotherapy, etc.

Composition per sachet (2 g): *Enterococcus faecium*: 1x10⁹ UFC, Chicory extract: 300 mg, Brewer's yeast: 200 mg, Fennel extract: 150 mg, Anise extract: 150 mg, Licorice extract: 150 mg, Lion's mane extract: 100 mg, Shiitake extract: 100 mg, Excipients q.s.

Administration: 1 sachet (2 g) per day, regardless of the pet's weight.

Packaging: C: 260020 Box of 25 sachets of 2 g

NEW FORMAT

CANNABIS AND OMEGA-3 EXTRACT

CroniCare

CroniCare is a 100% natural dietary supplement for cats and dogs. It is formulated with fish oil (w-3 source) and hemp extract, which have shown to exert anti-inflammatory, antioxidant and anxiolytic effects. It has very low THC (the molecule responsible for the psychoactive and toxic effects) levels. Therefore, its side effects are not expected in dogs and cats.

Indications: during the treatment of chronic pain, anxiety, epilepsy, cognitive dysfunction, inflammation, arthritis, autoimmune diseases, sleep disorders, stress...

Composition per g: Fish oil: 750 mg, Hemp extract (4% CBD): 250 mg.

Administration: Consult the technical data sheet.

Packaging:

C: 260030 30-ml container with a dropper

C: 260031 100-ml container with a syringe

RELAXATION FROM NATURE

Zen Collar

It helps to reduce the behavior problems derived from stressful situations in a natural way. Its effects are seen after 1 hour and last for up to 8 weeks after. The collar is waterproof and includes a safety clasp.

Composition: collar with valerian, passiflora and chamomile.

Directions for use: Place the collar around the dog's neck, near the skin. It can be used in dogs of all ages, breeds and sizes. Do not use in cats.

Packaging: C: 260500 60-cm collar in a single unit package

FOOD SUPPLEMENTS

CHONDROPROTECTOR

Artivet Complex

Chondroprotector for cats and dogs with an improved formula. In addition to chondroitin and glucosamine, it includes MSM, Hyaluronic acid, Glycine and Hydrolyzed Collagen Type II as effective nutrients against joint degeneration. Hyaluronic acid acts as a shock absorber in the connective tissue. MSM diminishes inflammation by reducing the pressure inside the cell.

Indications: as a preventive in elder pets, large breed dogs or dogs practicing vigorous exercise. With repairing and anti-inflammatory effect in cases of osteoarthritis, rheumatism, joint surgeries and trauma.

Composition per tablet: Chondroitin sulfate: 300 mg, Glucosamine hydrochloride: 300 mg, MSM: 250 mg, Glycine: 150 mg, Hydrolysed Collagen Type II: 150 mg, Hyaluronic acid: 15 mg, Zinc chelate of methionine: 50 mg (Zn: 10 mg), Sodium ascorbate (Vit. C): 10 mg, Excipients q.s.

Administration: 1 tablet (1.3 g) per 10 kg of body weight per day, up to 4 tablets/day.

Packaging:

C: 160204 60-tablet container

C: 160205 300-tablet container

C: 160206 1 kg in powder form, for horses

C: 160207 300-tablet clinical blister pack

Artivet Complex Large Breeds

Same ingredients as Artivet Complex, in 2.5-g tablets for large breed dogs.

Composition per tablet: Chondroitin sulfate: 577 mg, Glucosamine hydrochloride: 577 mg, MSM: 480 mg, Glycine: 288 mg, Hydrolysed Collagen Type II: 288 mg, Hyaluronic acid: 29 mg, Zinc chelate of methionine: 95 mg (Zinc: 19 mg), Sodium ascorbate (Vit. C): 19 mg, Excipients q.s.

Administration: <30 kg: 1 tablet (2.5 g)/day; >30 kg: 2 tablets (2.5 g)/day.

Packaging:

C: 160240 60-tablet container | C: 160241 120-tablet container

C: 160242 240-tablet clinical blister pack

CHONDROPROTECTOR

CondroCit

Specially formulated for dogs' and cats' joints. It combines shark cartilage with glucosamine, chondroitin sulfate (natural glycosaminoglycans) and MSM (bioavailable sulfur).

Indications: repairing effect on cartilages and joints. Anti-inflammatory and muscle relaxant effect. Very effective against arthritis and rheumatism. Preventive in large breed puppies.

Composition per tablet: Methylsulfonylmethane: 400 mg, Glucosamine hydrochloride: 300 mg, Shark cartilage: 150 mg, Chondroitin sulfate: 150 mg, Manganese sulfate: 10 mg, Excipients q.s.

Administration: 1 tablet (1.3 g) per 10 kg of body weight per day.

Packaging:

C: 160216 60-tablet container

C: 160218 120-tablet container

NEW PRODUCT PACKAGING IN BLISTER

MULTIVITAMIN

VitaVet Complex

It is a dietary supplement that helps animals to recover from anemia and vitamin deficiencies. It corrects dietary deficiencies and provides a boost of vitamins and minerals in conditions such as pregnancy, convalescence, lactation, and old age. It contains trace elements, that are catalysts of biochemical reactions.

Composition per tablet: Ferrous fumarate: 29 mg (Iron: 9.5 mg), Copper sulfate: 16 mg (Copper: 0.5 mg), Zinc chelate of methionine: 65 mg (Zinc: 13 mg), Vit. A: 1250 IU, Vit. B1 (Thiamine): 1 mg, Vit. B2 (Riboflavin): 1 mg, Niacinamide: 10 mg, Calcium-D-pantothenate: 0.5 mg, Vit. B6 (Pyridoxine): 1 mg, Folic acid: 0.2 mg, Vit B12 (Cyanocobalamin): 8 mcg, Vit. E: 2 IU, Vit. D3: 125 IU, Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight per day.

Packaging: C: 160231 60-tablet container

OMEGA-3 KRILL OIL

KrillVet

Krill oil is 100% natural and it is rich in the phospholipid form of EPA and DHA, allowing a better absorption and therefore a stronger and quicker response when compared to fish oil. It also contains high levels of Astaxanthin, with a high antioxidant effect. Certified sustainable seafood.

Indications: skin and fur health, joint inflammation, cognitive function, ocular and renal systems, cardiovascular risk reduction.

Composition per capsule: 500 mg krill oil.

Fatty acid content per capsule: Total Omega-3 fatty acids: 124 mg, EPA: 69 mg, DHA: 32.5 mg, Astaxanthin: 83 mcg, Choline: 30 mg, Phosphatidylcholine: 230 mg.

Administration: Cats and dogs < 10 kg: one capsule every other day.

Dogs > 10 kg: one capsule per 10 kg of body weight per day.

Dosage can be increased according to the veterinarian's judgement.

Packaging:

C: 160235 60-capsule container

C: 160236 120-capsule container

ESSENTIAL FATTY ACIDS + BIOTIN + Zn + Se

Dermovital Omega 3-6-9

Optimized formula with a balanced amount of omega-3, -6 and -9 essential fatty acids, together with MSM, Biotin, Zn and Se. It exerts an anti-inflammatory and wound-healing effect, promoting skin metabolism. It supports the growth and protection of fur, skin and nails.

Indications: dull and dry fur. Infections and allergies, skin disorders such as eczema and atopic dermatitis.

Composition per capsule: Enriched fish oil: 260 mg, Borage oil: 140 mg, Olive oil: 60 mg, MSM: 15 mg, Zinc oxide: 3.49 mg (Zinc: 2.8 mg), L-seleno-methionine: 10.53 mg (Selenium: 50 mcg), Vitamin E: 0.5 mg, Excipients q.s.

Fatty acid content per capsule: EPA (ω-3): 85.8 mg, DHA (ω-3): 57.2 mg, GLA (ω-6): 32.2 mg, LA (ω-6): 51.8 mg, Oleic acid: 45.1 mg, Arachidonic acid: 2.1 mg, Erucic acid: 3.5 mg.

Administration: Cats and puppies: 1 capsule (710 mg)/day.

Dogs < 15 kg: 2 capsules/day. Dogs > 15 kg: 3 capsules/day.

Packaging:

C: 160211 60-capsule container | C: 160219 300-capsule clinical container

C: 160220 300-capsule clinical blister pack

OMEGA-3 AND OMEGA-6 ESSENTIAL FATTY ACIDS

Dermovital Drops

This combination of omega-3 and omega-6 fatty acids is aimed at reducing inflammatory processes linked to skin hypersensitivity, as well as at skin and hair repair. The drop dosage system allows its administration to small dogs, cats and other pets, including birds, rodents and ferrets.

Composition per gram: Evening primrose oil: 850 mg, Fish oil: 150 mg.

Fatty acids content per ml: GLA (ω-6): 70.76 mg, LA (ω-6): 581 mg, EPA (ω-3): 24.98 mg, DHA (ω-3): 16.65 mg.

Administration: Kittens: 5 drops/day. Adult cats: 10 drops/day.

Dogs: 5 drops/day/kg of body weight. Birds: 1 drop/day.

Rodents: 1 to 5 drops/day

Packaging: C: 160208 15-ml dropper bottle

DERMAL COMPLEX WITH ZINC

Dermovital Zinc

Zinc is an essential trace element for animals. It is involved in the formation of fur, skin and claws. Together with the effects of omega-3 and omega-6 fatty acids, Biotin, Vitamin A, and Vitamin B complex, this product is a broad-spectrum food supplement for dogs with skin disorders such as eczema, dandruff, hair loss or dull fur.

Composition per tablet: Zinc chelate of methionine: 125 mg (Zinc: 25 mg), Salmon oil: 40 mg, Borage oil: 120 mg, Olive oil: 8 mg, Biotin: 1 mg, Vit. A: 250 IU, Vit. B1: 1.5 mg, Vit. B3: 10 mg, Calcium-D-pantothenate: 5 mg, Vit. B6: 2 mg, Folic acid: 0.2 mg, Vit. B12: 2 mcg, L-selenomethionine: 10.53 mg (Selenium: 50 mcg), Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight per day.

Packaging: C: 160234 60-tablet container

BIOTIN + B-GROUP VITAMINS

Biotin B Complex

Biotin and B-group vitamins activate the metabolism of the skin, fur and nails, and favor the rebalancing of the epithelia.

Indications: growth and protection of fur, skin and mucous membranes. Shedding periods. Severe skin disorders: hair loss, irritation, pruritus, dermatosis. Dull and rough coat. Candidiasis (together with Floravet Complex). Neurological disorders.

Composition per tablet: Biotin: 14 000 mcg, Vitamin B1: 1.4 mg, Vitamin B2: 1.6 mg, Vitamin B6: 2.0 mg, Vitamin B12: 1.0 mcg, Excipients q.s.

Administration: 1 tablet (1 g) per 10 kg of body weight per day.

Packaging:

C: 160222 100-tablet container

C: 160224 300-tablet container

C: 160230 1-kg container for horses

SPIRULINA SEAWEED

Espiruvet

Spirulina is a microalga that contains a large amount of essential nutrients: proteins, B-group vitamins, minerals, β-carotene, organic iron, antioxidants...

Indications: to enhance fur, eyes and nose color. Helps pigmentation and strengthens the immune system. Improves digestion and produces a moderate satiating effect.

- C: 160305 400-g box (including a free feeding bottle)
- C: 160303 500-g bag
- C: 160304 2-kg pack

WITH OMEGA FATTY ACIDS AND TAURINE

MALTA FOR CATS AND DOGS

Malta

Natural food supplement with a pleasant taste. It has mild laxative properties, so it is an ideal aid for the elimination of hairballs and for speeding up the intestinal transit, preventing obstructions in the digestive tract. It is very effective in cases of prolonged constipation.

Composition: Malt extract, brewer's yeast, soy lecithin, glycerol, Excipients q.s.

Packaging:

- C: 160209 100-g tube

Malta Omegas & Taurine

It contributes to the regulation of the digestive system and to the elimination of hairballs. It contains omega-3 and omega-6 fatty acids that protect the skin, fur and mucosa. It also includes Taurine to prevent its deficiency.

Composition: Malt extract, brewer's yeast, fish oil, primrose oil, Taurine, soy lecithin, Excipients q.s.

Packaging:

- C: 160210 100-g tube

HYGIENE AND BEAUTY CARE

DENTAL SPRAY

DentiVet Total Protection

It offers a complete oral hygiene: it protects the gums and sensitive teeth. It controls plaque and tartar build-up and eliminates bad breath. Due to its astringent, desensitizing and healing effects, it is especially indicated as an adjuvant in periodontal disease, as well as an excellent support before and after dental treatments.

Composition: Chlorhexidine digluconate, Sodium fluoride, Zinc gluconate, Lysine, Glycine, D-panthenol, Potassium nitrate, Polysorbate 20, Flavoring, Coloring, Water.

Directions for use: Spray on the animal's teeth twice a day, without brushing or rinsing. When running the tongue over its teeth, the animal favors the spreading of the product.

Packaging: C: 150107 125-ml spray bottle

DENTAL SPRAY

DentiCan Spray

Oral spray with the most innovative and comfortable formula for your pets' oral and dental hygiene. Its triple action formula eliminates bad breath and controls plaque and tartar in cats and dogs. It can be used from a young age.

Composition: Chlorhexidine digluconate, Sodium saccharine, Sodium fluoride, Benzoic acid, Sodium benzoate, Flavoring, Excipients q.s.

Directions for use: Spray on the animal's teeth once a day, without brushing or rinsing. When running the tongue over its teeth, the animal favors the spreading of the product.

Packaging: C: 150100 125-ml spray bottle

SOLUBLE MOUTHWASH

DentiCan Soluble

This product dissolves easily in the animals drinking water. Its components help to prevent plaque and tartar build-up and eliminate bad breath. For animals over 6 months old.

Composition: Chlorhexidine digluconate, Sodium fluoride, Benzoic acid, Polysorbate 20, Vanilla flavoring, Glycerin, Coloring, Potassium sorbate, Zinc gluconate, Water. It does not contain Xylitol.

Directions for use: Dilute 1 cap of DentiCan Soluble per liter of drinking water. Change the water every day.

Packaging: C: 150110 250-ml bottle | C: 150108 500-ml bottle

TOOTHBRUSH AND TOOTHPASTE

Dental Kit

Dentican toothpaste has been specially designed for pets. It eliminates bad breath and fights tartar and plaque. It is formulated with papain, a proteolytic enzyme that provides a whitening effect and strengthens the anti-plaque effect after brushing. The toothbrush has a flexible triple head which makes it comfortable and effective. It is specially designed for dogs' teeth and facilitates a safe cleaning, even in hard-to-reach places.

Toothpaste composition: Glycerin, Hydrated silica, Tetrapotassium pyrophosphate, Sorbitol, Papain, Tetrasodium pyrophosphate, Xanthan gum, Titanium dioxide, Excipients q.s.

Packaging:

- C: 150116 Tooth paste 100 g
- C: 150117 Brush
- C: 150118 Kit : brush + tooth paste 100 g

HEALING SPRAY

CicaVet

Quick-drying spray for topical use. CicaVet stimulates natural wound healing without scabbing. It soothes and calms the itching. Thyme essential oil contributes to fight infections.

Composition: Glycerin, Asian centella extract, Thyme, Aloe and Calendula essential oils, Excipients q.s.

Directions for use: Clean the wound and the surrounding skin. Spray on the affected area and bandage. Apply twice a day if a bandage is not applied.

Packaging:

- C: 150125 125-ml spray bottle | C: 150127 500-ml spray bottle

TANNING SPRAY

CurtiVet

Footpad lotion. The new formulation includes Urea and MSM, two keratolytic agents that are essential for the maintenance of the skin balance. Together with its 3 plant extracts (Centella, Aloe Vera and Thymus), CurtiVet prevents irritation, increases abrasion resistance and promotes wound healing. It does not stain clothes, it is easy to use and it dries quickly.

Composition: Glycerin: 40%, Urea: 5%, MSM: 3%, *Centella asiatica* extract: 3%, *Aloe barbadensis* extract: 0.3%, *Thymus vulgaris* extract: 0.3%, Excipients q.s.

Directions for use: Spray directly onto the footpad area. Preventive maintenance: daily, starting from three weeks before the high activity season. During the season: use once every three days. On irritated footpads: use daily for two weeks.

Packaging: C: 150124 125-ml spray bottle

TEAR STAIN REMOVER

CanBel

CanBel removes tear stains and improves the appearance of your dog's or cat's eyes. For a complete eye health, it is recommendable to combine it with OptiCan. It eliminates all kinds of body stains on white dogs effectively: on the legs, genitals and perianal region.

Composition: Boric acid, Hamamelis water, anhydrous disodium phosphate, monosodium phosphate dihydrate, disodium edetate, Excipients q.s.

Packaging:

- C: 150119 60-ml bottle with cannula
- C: 150121 500-ml spray bottle

EYE HYGIENE

OptiCan

Balanced solution for the lubrication and care of your pet's eyes. Artificial tears with soothing effect. It is an aid for protecting against infections and external agents. It helps to reduce chemosis and soothes, refreshes and sedates sore eyes.

Composition: Hamamelis water, anhydrous disodium phosphate, monosodium phosphate dihydrate, sodium chloride, Excipients q.s.

Directions for use: Press the bottle and apply several OptiCan drops on the eyes. Dry the eye edges with a sterile gauze. Repeat frequently to relieve pain and maintain eye health.

Packaging: C: 150114 125-ml bottle with cannula

EAR HYGIENE

OtiCan

It is an excellent ear cleaner with an emollient action for dissolving solve earwax and softening scabs in dogs' and cats' ears.

Composition: Water, ethanol, glycerine and isopropyl alcohol.

Directions for use: Apply several OtiCan drops in the ear canal. Massage by pressing the base of the ear with your fingers for a few minutes. Tilt the animal's head to remove the earwax easily.

Packaging:
C: 150101 125-ml bottle with cannula

EAR HYGIENE

OtiVet

Ear cleaning and softening solution with essential oils. It can be used as a pre-cleaning or as a vehicle solution for treatments in cases of external otitis. It contains thyme extract to prevent infections.

Composition: Water, glycerine, propylene glycol, calendula and thyme essential oils.

Directions for use: Apply several OtiVet drops in the ear canal. Massage by pressing the base of the ear with your fingers for a few minutes. Dry with a sterile gauze.

Packaging: C: 150123 125-ml bottle with cannula
